The house has not been occupied full time by both sellers since Fall 2005.
 Utility usage since then is not typical; information for the three seasons
 prior to Fall 2005 are shown below.

Month	Elect KWH	Heat Oil Avg Seasonal Useage-gpd	Propane Avg Seasonal Useage-\$/mo
Aug-05	773	3.4	\$53

Oct-02	736	3.3	\$37
Sep-02	424	3.3	\$37

Electric - KWH usage shown is based on GVEA billing received that month
Heating oil - deliveries are random, based on temperatures; useage
 shown is average gallons/day used during that heating season (Sep-Aug)
Propane - No usage figures are available, only the amounts paid for deliveries;
 deliveries were 3x/yr - cost shown is average monthly cost for deliveries
 made between Sep & Aug; would need to find propane delivery rates
 in effect at that time, from Amerigas, to convert \$ to gallons used.
 (Propane is used by both hot water heater and stove)
